

## Dome Calibration Service

Especially dome projections require a certain attention to detail. The 3D structure and several other challenging conditions make a proper calibration difficult. With our long experience in dome calibrations MEEN can support you to achieve a professional solution in a fast setup time. Our camera based VIOSO® auto-calibration technology helps to bring your dome project to success.

# MEEN

SUPPORTING THE PROFESSIONALS

Holger Walter is the CEO of MEEN and distributor for VIOSO® and AV-Stumpfl in the GCC region. He is a certified VIOSO® calibration expert and is specialized on large format and dome projections. His most challenging project happened 2019 in Dubai, the wedding of Sheikh Hamdan -Crown Prince of Dubai- with 169 projectors. World Record!
